### Product parts

**A** QR lever & axle

**B** Frame release

**C** Fixing nut & washer

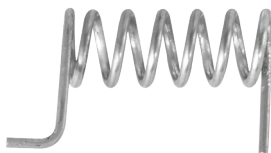

**1** Uninstall the original seatpost clamp.

**2** Keep the original sleeve (A1) and spring (B1). You'll need them for the installation of this product.

**A1**

**B1**

**3** Once installed in the frame, the different parts should follow this sequence:

**A** → **A1** → **B** → **B1** → **C**
